

SCUDO

EDITION 19

SCUDO

Scudo is a brand and trading name owned by Harrison Bathrooms. For over 100 years, Harrison Bathrooms has hand-picked quality bathrooms, creating stunning collections and building a reputation for delivering the finest suites.

Today, this family-run business continues to only offer the best. We specialise in creating bespoke products, designed exclusively for use in the UK market.

Best Distributor Brand

Harrison Bathrooms are proud to have been named twice as one of Britain's private companies with the fastest-growing sales.

Scudo is a brand and trading name - owned by Harrison Bathrooms Ltd.

SCUDO

WHY CHOOSE SCUDO?

We prioritise quality above everything else, delivering precision-made products across every collection. From full bathroom suites to the finer details, each piece is created to the highest standards. Plus, with Scudo, every corner of your bathroom is catered for, so you can buy everything you need right here.

We pride ourselves on having an in-depth knowledge of every item we offer, so you're certain to receive excellent service from the start of your bathroom creating journey to the moment it's completed.

INNOVATIVE DESIGN

Boasting the ultimate collection for any bathroom, our product ranges are made to last. We use robust materials throughout, meaning that many of our products are designed and manufactured to surpass most of the world's quality standards.

As well as using durable, dependable materials, we also provide a range of styles and designs. Whether you want traditional handmade furniture, sleek brassware, or a modern, glistening stainless steel finish, there is something to suit a variety of tastes. Whichever design you choose, you'll find that every fitting is made with passion and built to bring instant style to any 21st century home.

A NAME YOU CAN TRUST

We know that our customers expect different things of their bathrooms. Some require space saving fittings while others want to update the space to fit with the rest of their home. Our product ranges meet a range of needs and are covered by a lifetime guarantee, so you can enjoy added peace of mind when you choose us.

Whatever you're looking for, you'll find it here. This eclectic selection of beautiful bathrooms is guaranteed to make your next bathing experience one to remember.

The majority of our products are covered by a lifetime guarantee.

See page 386 for details.

NEW PRODUCTS

We hope you enjoy discovering Scudo 19 where you will find a huge selection of on-trend bathroom furniture and bathroom products to feel inspired. Look out for the 'NEW' references in this brochure to see our latest additions.

New for Scudo 19 is the stylish fluted Linea Curve and Linea Cloakroom collections and we have introduced a new cloakroom section for this growing trend. We've also expanded our basin range with innovative additions. KOKO combines metallic and polymarble finishes and the luxurious Core basin is made from stainless steel to provide an industrial twist.

Create the perfect retreat for relaxation with our new Tutto freestanding bath which has been designed with style and practicality in mind. New for Scudo 19 is a range of statement mirrors to offer something for every style of bathroom. These mirrors combine contemporary aesthetics with features such as wireless charging pads and ambient colour change options.

FLUTED FINISHES

Fluted finishes have become increasingly sought after in bathroom design for their elegant and timeless appeal. Elevate your bathroom with our new Linea Curve and Linea Cloakroom Units to add visual interest and sophistication to your space.

We have also introduced further new fluted additions to Scudo 19 including the stunning KOKO basin which combines metallic fluting and polymarble with impressive results along with fluted flippers to expand our wetroom offer.

SANITARYWARE

We offer an extensive range of sanitaryware designs suitable for any bathroom space regardless of its design and configuration covering modern, contemporary, and timeless styles.

SOFT CLOSE MECHANISM

Our soft close toilet seats close in a slow, quiet, and controlled way to reduce the impact and extend the life of the seat.

COMFORT HEIGHT

Scudo comfort height WCs are slightly higher than a standard pan to comfortably accommodate taller, less able, or older users.

EASY CLEANING

Push button quick release toilet seats for easy cleaning.

REDUCED WATER CONSUMPTION

Dual flush cisterns reduce water consumption for the environmentally conscious and save on energy bills with 3 and 6 litre flush options.

SHORT PROJECTION

These reduced depth WCs take up less floor space and are perfect for small bathrooms and en-suites.

TAILORED FINISHES

Obtain a perfectly styled bathroom with these extra additions to selected WCs. Black and white push buttons and toilet hinge cover caps are available.

RIMLESS

We offer a range of rimless WCs with no ledges to reduce bacteria and limescale growth. With the unique flush system, water is projected around the pan, giving an even flow of water over the whole surface of the bowl.

BASIN OVERFLOW COVERS

Add a glamorous finishing touch to your bathroom with our basin overflow colour covers which also co-ordinate with our mirrors, taps, and accessories. Choose from matte black, brushed brass, white, gunmetal and brushed bronze overflow cover options to get the complete look. **(Supplied with chrome as standard).**

SLABMB-800-CARRARA
£729.00

As a naturally occurring material, marble exhibits inherent variations in colour, pattern, texture, and surface features, resulting in no two pieces being exactly the same, despite being sourced from the same quarry. These unique characteristics develop over millions of years through geological processes and should be taken into account when viewing product images as they serve as a representative guide only.

CONTACTLESS SENSOR FLUSH

The Scudo contactless flush sensor is a great upgrade to push button alternatives, and is suitable for both existing and new cisterns. The infra-red sensor provides a hygienic way to operate your flush that is quick and easy to install.

The flushing valve and sensor is operated by 4 x AA batteries, with a life cycle of thousands of flushes. There is also a manual override when the batteries deplete. Create a high-end feature in your bathroom with minimal investment, a good way to upgrade your bathroom quickly and effortlessly.

- > Dual flush
- > No electrical installation
- > Uses 4 AA batteries that can provide thousands of flushes.
- > Manual back-up, button can still be used as a push button if battery runs out
- > Adjustable Dual Flush
- > Adjusted between 2 and 6 litres.
- > RoHS Certified
- > IPX4 rated
- > Sensor suitable for top mounting only, not suitable for forward facing placement

Contactless Flush Sensor

ALFIE

RANGE FEATURES

Fluting is a classic look in interior design and is a fantastic way to add texture to a bathroom. Alfie is inspired by retro design with a modern twist and is a show-stopping must-have.

Alfie is supplied with a fluted door front as standard. With an elegant handle-free design, Alfie features a high-quality push-to-open mechanism and matching slab worktops.

Alfie is available in our best-selling 600mm unit size and the open storage unit can be easily added to create additional stylish storage. Open storage is a growing bathroom trend. Rather than hiding your accessories behind cabinetry, show them off in style in the designer open shelving which provides immediate access to your bathroom necessities.

We have also introduced a 1400mm marble worktop double vanity unit to create a shared bathroom design that allows for concurrent morning routines.

Choose from three stunning finishes. The Sonoma Oak natural woodgrain effect adds warmth and a beautiful texture to a bathroom while Reed Green brings a calming vibe. Alternatively, make a statement with Matte Black which contrasts super well with our white sanitaryware.

Our round mirrors work particularly well with the Alfie modular unit and our co-ordinating brassware completes the look. The countertop ceramic basin adds the perfect finishing touch.

RANGE FEATURES

For something truly special, the Ambience collection combines high spec styling with contemporary features. Comprising a sleek basin, tall boy and matching mirror, each piece in this range is designed to enhance your bathroom and add an element of sophistication.

Ambience is available in a choice of four finishes. Rustic Oak, which offers classic, homely wood tones, and Grey Oak, a chic, neutral shade. Also available in a classic Matte White and Matte Grey so you can be assured there is a colour to complement your bathroom.

For practicality with a modern twist, there are sensor-operated, battery-powered LED lights lining the drawer beneath the basin, enhancing the usability of this unit and offering a neat lighting solution.

The basin comes in a choice of white or grey poly-marble and a chrome and black overflow are included as standard, so it's possible to try both options out to see which fits the space best.

In addition, both the basin and tall boy are wall-hung, freeing up valuable floor space and making them ideal for compact bathrooms. A frame shelf is an optional extra that can be added to the tall boy and basin to provide further storage and shelving.

The units are either 600mm or 800mm, making this collection suited to an array of bathroom sizes.

AUBREY

RANGE FEATURES

Make a statement with our Aubrey modular collection to give your bathroom a modern, minimalist look. The stunning integral handle design is the focal point to create a premium high-end look.

Aubrey offers three different trend finishes: Davos Oak, Dust Grey, and Reed Green. Davos Oak is perfect in bathroom design to create a warm and calming effect of wood. Dust Grey is a mid-grey and Reed Green brings a calming vibe to create a modern looking bathroom.

The designer handle is available in chrome, matte black, brushed brass, brushed bronze, and gunmetal. This co-ordinates perfectly with our mirrors and brassware colour options to complete the look. **Please specify your handle choice when ordering.**

Aubrey is featured to the left with the Stance ceramic counter top basin and thin on-trend Carrera Marble worktop for a luxurious finish.

RANGE FEATURES

The Bella range of furniture spans both floor standing and wall hung options.

Choose between a range of sizes, from a more compact 600 width basin up to a luxurious 1200 double basin size.

Basins are high quality stonecast to ensure the sweeping lines are crisp and clean, topped with an anti-bacterial high gloss finish. If your preference is for a ceramic basin, our Ella range might be just what you're looking for. (see page 88)

All of the wall mounted furniture features adjustable hangers to ensure your furniture can be installed easily and can withstand the daily use in a busy family bathroom.

All Bella units feature a metal drawer box mechanism, meaning the action of the sliding drawer remains smooth and stable throughout its life in your home. The mechanism is soft closing with a smooth and controlled closure.

The matching tall boy unit offers huge storage space for toiletries, and is perfect for large families.

Bella Matte Grey furniture is made in Britain. High Gloss White is also available.

800 BOHO Floorstanding Unit, 800 Black Frame, Rustic Oak Drawer, 800mm Polymarble Basin, Core Side Lever Mono Mixer in Brushed Brass, Brass Minimalist Bottle Trap, Prospr Bluetooth LED Cabinet, Mono Double Towel Rail in Matte Black

BOHO

RANGE FEATURES

BOHO is a contemporary range that exudes luxury and finesse combining a stunning matte black frame with rustic oak accents.

The BOHO freestanding vanity unit is perfect for the modern minimalist bathroom. The stylish and functional design gives the feeling of more space in the bathroom for a much-desired premium finish.

This unit offers practical storage, and the oak finish creates a natural, calming, and sophisticated space.

BOHO uses only the finest materials, and the eye-catching signature polymarble basin adds the perfect finishing touch.

CHEVRON

RANGE FEATURES

The Chevron range by Scudo is a subtle nod to the Art Deco design movement, incorporating sleek lines that create a bold look for your bathroom.

Chevron is a stylish collection that comes in a choice of two colours. The blue is a beautifully sophisticated tone that adds a bold splash, while the powdery pink is an elegant shade. Both shades have been created to complement any type of bathroom.

In addition to delivering a chic aesthetic to your bathroom, Chevron is also practical. The wall-hung basin frees up valuable floor space, making it an ideal choice for bathrooms that are compact. A frame shelf is an optional extra that can be added to the basin to provide shelving.

The units are available in a choice of 600mm or 800mm, making this collection suited to a range of bathroom sizes.

RANGE FEATURES

The Ella collection by Scudo brings together neat design and stylish features to form bathroom furniture that suits a whole range of bathrooms.

Take your pick from floor standing and wall hung options to build a bathroom that works for you. Should you want to free up floor space, wall-hung units are the ideal choice, while floor standing pieces fill the room and take centre stage.

As well as being able to choose where your furniture is placed, you can also select different sizes. Basins are available in a compact 600mm-wide design up to a luxurious 800mm. All of the basins in this collection are made from high quality ceramic, ensuring durability and longevity.

You can complete the look with a tall boy unit. These offer ample storage space for toiletries and are perfect for large families.

All Ella units feature a metal drawer box mechanism, meaning the action of the sliding drawer remains smooth and controlled with every use.

Whichever piece you choose from the Ella collection, you're sure to add something special to your bathroom when you bring this range into your home.

RANGE FEATURES

The Empire range of furniture has been created with the minimalist in mind. This collection of bathroom units swaps out traditional handles for hidden recesses, forming a sleek finish. In addition, each piece in the range features soft-close doors, adding to the smooth aesthetic.

Empire is also a flexible collection, encompassing units in a selection of sizes and combinations designed to slot neatly into any bathroom.

Take your pick from standalone pieces, or opt for a combined vanity and WC unit that can be seamlessly brought together with a one-piece polymarble top.

This Europe-made range comes in a choice of four colours: white, blue, green, or anthracite - a cool grey shade that adds a neutral tone to the space. For a smart, minimalist bathroom, Empire is the perfect choice.

RANGE FEATURES

Introducing Muro Plus, a versatile bathroom furniture collection giving you more choice to create your perfect relaxation space. Muro Plus is supplied with a complimentary modern Chrome handle.

Muro Plus includes both 2 drawer floorstanding and wall hung options offering more storage and choice than ever. Offering a durable metal drawer frame with a soft closing mechanism.

This reduced depth next generation design includes a striking selection of finishes including Davos Oak with its natural elements, medium, cool Dust Grey, natural Reed Green and our ever popular White for a high-quality finish.

The stylish selection of Scudo handles complements Muro Plus and can have a big impact to provide the perfect finishing touch. Our bright white 500mm, 600mm and 800mm Muro Plus ceramic basins are durable and long lasting.

MURO OPTIONAL EXTRAS - ADJUSTABLE BLACK FRAME & 1200 BASIN

Our Muro Plus range features many optional extras, that allows you to tailor this product to your taste. Our Muro Black Frame allows you to transform our wall hung unit into a beautiful floor unit. offering handles and overflows to match this mono aesthetic.

The standard unit features a modern rectangular basin but is easily upgradeable into a unit that creates a shared bathroom with our Muro Plus 1200 basin and two 600mm units. The soft close door is supplied with a chrome handle with the option to upgrade to a matte black finish.

RANGE FEATURES

The Rossini range is a modern freestanding furniture collection. Not only is it pleasing on the eye, but a few important details ensure it's also a pleasure to live with. The Rossini's doors are a luxurious 25mm thick, to give them a high quality feel, which is complemented with soft closing doors.

The Rossini range comes in a 500mm, 600mm, and 800mm wide vanity unit with a ceramic basin and a matching WC unit. All three colours are made in a sleek desirable lacquer finish.

RANGE FEATURES

Introducing a revolutionary advancement in bathroom design and innovation from Scudo. We're proud to be setting a new standard for sustainable furniture practises with Waterguard.

Made from strong moisture-resistant high density PVC, this furniture is sustainable and build to last with a lifetime guarantee to protect your investment. Waterguard helps reduce the need for frequent replacements and minimises the amount of furniture waste that ends up in landfills.

Bathrooms are naturally high in moisture that could lead to damage over time. Waterguard has been developed with this in mind using only the best materials and manufacturing techniques.

The unique construction of Waterguard units means that they are 100% waterproof and cannot delaminate like a traditional veneered unit to offer a lifetime of protection against swelling. This is the perfect solution if you are looking for low maintenance sustainable bathroom furniture with solid construction which is built to last.

RANGE FEATURES

Make the most of your compact space with Esme which exudes charm and functionality. This unit is perfect for anyone looking for a statement piece that is on-trend and highly practical with plenty of storage.

This unit is available in a striking selection of colour, with a wide variety of optional handles. The single internal shelf offers plenty of storage space for bathroom essentials while the soft close doors provide quiet and controlled closure.

The floorstanding Esme cloakroom unit is a perfect way to add additional storage space to a smaller bathroom without compromising on space. Esme is compact and slimline and is available with a space saving ceramic basin.

Unleash the potential of your cloakroom with Esme.

LANZA CLOAKROOM

BASIN OVERFLOW COVER
COLOUR OPTIONS AVAILABLE

Page 329

RANGE FEATURES

This stylish Lanza cloakroom unit features a simple compact space-saving design while still offering ample storage space for your toiletries.

This unit features a chunky modern ceramic rectangular basin, and the soft close door is supplied with a chrome bar handle with the option to upgrade to a matte black finish.

This slim, reduced depth unit features a floor standing design to provide even more storage and can help to hide concealed pipework.

The Lanza cloakroom unit is available in a gloss white finish that will create a modern focal point in any compact bathroom to store away key toiletries.

Scan the QR code to Download our Fitted Furniture Brochure.

FITTED FURNITURE

A VERSATILE SOLUTION FOR A UNIFIED LOOK

Bring your dream bathroom to life when you select your favourite elements from our range of fitted furniture. Whether you have a large room to fill or you're reimagining a compact space, you can handpick every cabinet and cupboard door to make it look neat, sleek and sophisticated.

Every element of this range is produced to the highest standard, combining contemporary lines and elegant details to deliver the perfect look for your home.

Creating your brand-new bathroom is easy. Browse the collection of colours and sizes to find the combination that works for you. Follow each stage of the design process in our downloadable supplement to tailor your new bathroom.

Begin your design journey by taking a look at our downloadable fitted furniture supplement. Here, you can get inspired by the combinations we've created. Once you have an idea of what you'd like to do in your own bathroom, download our supplement (QR code above) to select your own bespoke furniture setup.

**18MM THICK
DOORS & CARCASS**

Robust design, high-quality materials, and expert craftsmanship combine to create superior doors and carcasses at unbelievable prices.

Locally made products designed and built right here in Britain. Every piece in the Scudo collection is created to the highest standard and delivers on quality and design.

For added peace of mind, all of our fitted furniture products are covered by a lifetime guarantee. See website for details or turn to page 386 for details.

EASY INSTALL

Internal carcasses come pre-assembled and are easy to fit. However, we recommend you get a professional to put everything into place for you. This will ensure your brand-new bathroom will be ready to go in no time.

HANDLE COLLECTION

RANGE FEATURES

Bathroom handles from Scudo feature exceptional design and exquisite detail. Choose from our extensive collection of handles and knobs in multiple finishes and styles to create the perfect finish in your bathroom.

If you're looking for more traditional bathroom handles or doorknobs, we'll have just what you're looking for. Our collection has been crafted with impeccable attention to detail and includes the latest knurled designs in metallic colours.

ACQUA SHIELD
GLASS CLEANING
TECHNOLOGY

HIGH
PERFORMANCE

Scudo offers the complete showering package, with something to suit every taste, space and budget.

Discover a premium selection of enclosures and shower trays, which delivers a truly exceptional showering solution.

This diverse and versatile collection offers the ultimate in quality, precision and craftsmanship and encompasses something for every style and shape bathroom.

We only use the finest quality materials to guarantee unsurpassed quality, ensuring all our products reach exceptional levels of style and performance.

All our enclosures and shower trays are designed for high performance and are built to last with a lifetime guarantee.

STEP 1: POSITION

The first decision to make is where to position your shower enclosure in the perfect space to work with your design. Showering positions are usually in a recess, corner or against a wall.

Recessed Enclosure

Single door is all that is required for a recessed enclosure.

Corner Enclosure

Positioned in a corner and a flexible option. Usually a door and side panel design.

Three-Sided Enclosure

Single wall space which accommodates a single door and two side panels.

STEP 2: MEASURE

Measuring for the shower enclosure is the next step to creating your new bathroom space. The area that you have available will determine the type of shower space you can accommodate as well as any tolerances or alterations needed.

It's important that you plan ahead and take exact measurements in your bathroom. Then simply choose from our comprehensive range of sizes to create your dream bathroom.

700+
mm

1000+
mm

1200
mm

STEP 3: STYLE

Once you have decided your bathroom plan and where to locate your enclosure, you can choose your style. Where you want to place your shower may dictate the type of shower enclosures you can choose from. Whatever your design, we have something that will work with your space to create a stylish look.

STEP 4: FINISH

The most exciting part of bathroom design is choosing your perfect finish. Our chrome finish is as popular as ever and we have seen the emergence of colour which can give a space a different dimension.

	Matte Black	This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.
	Chrome	Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.
	Brushed Brass	Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom.
	Gun Metal	New signature finish for use in modern and contemporary designs to add elegance to your bathroom.
	Brushed Bronze	Give your bathroom the sophisticated appearance it deserves with our striking brushed bronze finish.

STEP 5: GLASS

Acqua Shield Glass Cleaning Technology

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range.

By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

GLASS OPTIONS

Scudo offers a choice of toughened safety glass options with easy clean technology. Choose from 6mm or 8mm thick glass.

STEP 6: SHOWER TRAY

Complete your bathroom design with a low profile Shires shower tray which complements our range of enclosures.

This elegant, modern design is extremely durable and is available in a wide range of sizes to suit every bathroom.

MOMENTUM RANGE FEATURES

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design. Featured across this entire range.

VERSATILE DESIGN

Momentum has been designed with versatility in mind. Every bathroom has its own unique challenges when it comes to fitting an enclosure, but at Scudo our products engineers always think of the customer first making sure to design this high-quality product to incorporate multiple different layouts which include a wetroom variation, a recessed sliding door variation, & a sliding door with a side panel variation.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

DESIGNED IN THE UK FOR UK HOUSEHOLDS

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

ACQUA SHIELD

STANDARD GLASS

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.

QUALITY ASSURED

Stylish modern and sleek designs, crafted from quality materials to last a lifetime. Scudo are the only option for people who truly know how to create a beautiful bathroom.

S8 ENCLOSURES RANGE FEATURES

CUSHIONED COLOUR MATCHED MAGNETIC DOOR SEALS

Scudo magnetic door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their stylish finish is matched only by their superior practicality.

SOFT OPEN BUFFERS

Smooth and impact-free door openings are a staple of this high quality Scudo sliding door range. Utilising the pressure absorbing functionality of a singular discreet piston, this modern innovation ensures that shower doors open with a gentle and controlled feel.

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design. Featured across this entire range.

QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism. This allows the door to swing away from the frame for direct access to all areas of the shower - ideal for simpler and thorough cleaning.

PROFILE COVER CAPS

Scudo specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

DESIGNED IN THE UK FOR UK HOUSEHOLDS

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

ACQUA SHIELD

STANDARD GLASS

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.

QUALITY ASSURED

Stylish modern and sleek designs, crafted from quality materials to last a lifetime. Scudo are the only option for people who truly know how to create a beautiful bathroom.

DAWN ATHENA ENCLOSURES RANGE FEATURES

TRIDENT GUARD

Trident Guard is a unique hydrophobic coating that is bonded with our toughened safety glass during the manufacturing process. This invisible water-repellent barrier protects against limescale, soap scum and bacteria build-up for an easier clean and longer-lasting gleam. All glass featured in the Dawn showering collection are pre-coated with Trident Guard, prolonging the life of these key parts of your bathroom.

TOUGHGLASS

Designed to withstand day-to-day usage, all Dawn shower enclosures come with toughened safety glass, known as tempered glass, as standard. This is approximately four times stronger than ordinary glass. Instead of shattering into jagged pieces when broken, tempered glass fractures into small, relatively harmless pieces. This makes it a safe option for a space that sees a lot of activity, such as the bathroom. All glass is strictly tested in accordance with EN14428.

HIGH-QUALITY FINISHES

BLACK

CHROME

BRASS

Dawn enclosures are made to the highest standard, this includes their finish. We are proud to offer a variety of the most stylish finishes currently in the bathroom industry, this features chrome, matte black and brushed brass.

SEAMLESS DESIGN

Dawn frameless enclosures offer significant structural integrity, promoting light and accentuating space. Easy to clean without any worry of build-up along frame edges.

ECO-FRIENDLY

Dawn endeavours to use eco-friendly, sustainable and/or biodegradable packaging and materials wherever possible (or feasible) to do so.

LIFETIME GUARANTEE

All Dawn products offer the ultimate in quality, precision, and craftsmanship, exceeding approved UK and European testing standards. To give you complete peace of mind, all Dawn shower enclosures, walk-in panels, and bath screens are accompanied by a lifetime guarantee.

TRIDENT GUARD

STANDARD GLASS

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.

QUALITY ASSURED

Stylish modern and sleek designs, crafted from quality materials to last a lifetime. Scudo are the only option for people who truly know how to create a beautiful bathroom.

LIFETIME GUARANTEE

S6 ENCLOSURE RANGE FEATURES

CUSHIONED COLOUR MATCHED MAGNETIC DOOR SEALS

Scudo magnetic door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their stylish finish is matched only by their superior practicality.

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design.

QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism. This allows the door to swing away from the frame for direct access to all areas of the shower - ideal for simpler and thorough cleaning.

PROFILE COVER CAPS

Scudo specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

DESIGNED IN THE UK FOR UK HOUSEHOLDS

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

ACQUA SHIELD

STANDARD GLASS

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.

QUALITY ASSURED

Stylish modern and sleek designs, crafted from quality materials to last a lifetime. Scudo are the only option for people who truly know how to create a beautiful bathroom.

S6 BLACK ENCLOSURES RANGE FEATURES

CUSHIONED COLOUR MATCHED MAGNETIC DOOR SEALS

Scudo magnetic door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their stylish finish is matched only by their superior practicality.

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design.

QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism. This allows the door to swing away from the frame for direct access to all areas of the shower - ideal for simpler and thorough cleaning.

PROFILE COVER CAPS

Scudo specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

DESIGNED IN THE UK FOR UK HOUSEHOLDS

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

ACQUA SHIELD

STANDARD GLASS

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.

QUALITY ASSURED

Stylish modern and sleek designs, crafted from quality materials to last a lifetime. Scudo are the only option for people who truly know how to create a beautiful bathroom.

WETROOMS

STEP BY STEP

CREATE YOUR PERFECT WET ROOM

Wet rooms are becoming more and more desirable, and they're a great way to add value to your home. A wet room is an entirely waterproofed room and is a popular choice for modern bathrooms.

LIFETIME
GUARANTEE

ACQUA SHIELD
GLASS CLEANING
TECHNOLOGY

HIGH
PERFORMANCE

STEP 1: POSITION

This quality range of Scudo wet rooms has been designed with flexibility in mind and are typically installed in a corner of a bathroom.

Wetroom panel positioned in a corner with a deflector panel.

STEP 2: MEASURE

Create a minimalist bathroom space with our shower glass panels for wet rooms with options for all bathroom sizes and configurations. Simply measure your space and choose from our glass panels ranging from 600mm to 1200mm.

600+
mm

900+
mm

1200
mm

STEP 3: STYLE

The Scudo range of wet room panels and accessories can be combined to create hundreds of different configurations, ensuring the perfect product for your bathroom. When it comes to the framing of your glass panel, you can opt for a modern frameless design or a more sturdy, robust metal profile.

STEP 4: FINISH

The most exciting part of bathroom design is choosing your perfect finish. Our chrome finish is as popular as ever and we have seen the emergence of colour which can give a space a different dimension.

Matte Black

This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.

Chrome

Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.

Brushed Brass

Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom.

Gun Metal

New signature finish for use in modern and contemporary designs to add elegance to your bathroom.

Brushed Bronze

Give your bathroom the sophisticated appearance it deserves with our striking new brushed bronze finish.

STEP 5: GLASS OPTIONS

All our glass panels are made from toughened safety glass. All Scudo wet room glass panels are 1950mm or 2000mm in height for extra practicality.

Our panels are also treated with **Acqua Shield glass cleaning technology** which resists the build-up of limescale and grime on the glass surface making it easier to clean. On-trend fluted glass is now available as an option.

STEP 6: SHOWER TRAY

Scudo offer options with and without a shower tray. As a wet room design is an entirely weatherproofed room, there is no need for a shower tray. A walk-in shower design still uses a tray, like a conventional shower, but offers more space.

Please see **Page 264** for our full shower tray collection

Premium Quality Minos 10mm Frameless Wetrooms

The Minos 10mm frameless wetrooms are highly durable and long-lasting to offer more safety and protection.

Satisfying the balance between luxury and versatility, Minos is an iconic range designed to transform your bathroom into the most perfect retreat.

An ideal choice for wet rooms and tiled bathrooms, or for those looking for the perfect centrepiece feature. The Minos walk-in range is a grandiose blend of traditional and modern styling.

Additionally, these can be configured to suit almost any space, making this a versatile collection for your home.

For a striking design feature the Minos range offers framed shower walls to show off the luxury finishes. Framed shower walls are available in the brushed brass and black premium colour finishes, creating a polished look.

 ecostone

What is Eco-Stone?

Sustainable Shower Trays for a Greener Future

Eco-Stone

Join us in creating a greener future, one shower at a time. Shires Eco-Stone shower trays combine exceptional quality with a conscious approach to protecting our environment.

Environmentally Conscious Filler

Eco-Stone shower trays feature limestone powder as the primary filler. To further enhance sustainability, these trays incorporate up to 30% recycled content, utilizing waste fragments from glass production that would have otherwise been destined for landfills.

This eco-friendly approach ensures a reduced carbon footprint while maintaining the highest quality standards.

Gel Coat Finish

The Eco-Stone gel coat technology is an environmentally friendly alternative to traditional unrecyclable methods using acrylic skins with stone resin filler. This can potentially save up to 700,000 sheets of acrylic annually which equates to an astounding 1.4 million kg's of plastic from polluting our environment.

Say Goodbye to Delamination

Unlike acrylic shower trays prone to delamination, our gel coat finish provides a reliable solution. Delamination, where the acrylic skin separates from the stone filler, causing bubbles and rendering the tray unusable, is a problem you won't encounter with our superior gel coat technology.

COMPONENT SHOWERS YOUR WAY

CREATE YOUR PERFECT SHOWER

Component showers offer a customisable approach to designing your own unique shower experience, allowing you to mix and match various shower components to suit your preferences and needs. By selecting individual elements

such as shower heads, valves, slide rails, handsets, and other accessories, you have the freedom to create a shower system tailored specifically to your desired functionality, style, and comfort.

WALL OR CEILING ARM

The wall arm offers stability and ease of installation, while the ceiling arm provides a luxurious overhead rainfall shower experience.

SHOWER HEAD

Our shower heads come in various shapes and sizes to suit your bathroom's aesthetic.

YOUR POTENTIAL COMPONENTS

CONCEALED OR EXPOSED VALVE

Concealed valves provide a clean and minimalist look by hiding the plumbing, while exposed valves offer easy access and a traditional aesthetic.

SLIDE RAIL OR HANDSET

The slide rail provides adjustable height and hands-free convenience, while the handset offers versatile, targeted spray and easy manoeuvrability.

FINISHES

The most exciting part of bathroom design is choosing your perfect finish. Our chrome finish is as popular as ever and we have seen the emergence of colour which can give a space a different dimension.

Matte Black

This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.

Chrome

Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.

CONCEALED VALVES

Why Choose a Twin Handle, 1 outlet Concealed Shower?

- > Easy to operate - the top control turns the water on and off and the bottom control adjusts the temperature.
- > A simple shower solution - the twin shower will operate one shower accessory, choose a fixed head or a slide rail kit.
- > Protection against accidental scalding.

FEATURES

- > Manufactured from solid brass.
- > Suitable for water systems between 0.2 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > 10 year guarantee.

Why Choose a Twin Handle, 2 Outlet Concealed Shower with Diverter?

- > Easy to operate - the top control is the diverter to switch between your shower accessories and the bottom control adjusts the temperature.
- > A flexible shower solution - the twin with diverter shower allows you to have two shower accessories, and diverts between them according to your preference.
- > Protection against accidental scalding.

FEATURES

- > Manufactured from solid brass.
- > Suitable for water systems between 0.2 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > 10 year guarantee.

Why Choose a Triple Handle, 2 Outlet Concealed Shower?

- > Easy to operate - the top control operates one shower accessory, the centre control adjusts the temperature and the bottom control operates the other shower accessory.
- > A flexible shower solution - the triple shower will operate two shower accessories, you can choose to run them separately or run two at the same time.
- > Protection against accidental scalding.

FEATURES

- > Manufactured from solid brass.
- > Suitable for water systems between 0.2 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > 10 year guarantee.

Why Choose a Triple Handle, 3 Outlet Concealed Shower with Diverter?

- > Easy to operate - the top control diverts between two shower accessories, the centre control adjusts the temperature and the bottom control operates a shower accessory - enabling you to have three shower options.
- > A flexible shower solution - the triple with diverter shower will operate three shower accessories, you can choose to run them separately or run two at the same time.
- > Protection against accidental scalding.

FEATURES

- > Manufactured from solid brass.
- > Suitable for water systems between 0.2 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > 10 year guarantee.

COLOUR RADIATORS

Available on Apex, Bravo, and Column Collections

OVER 180 CLASSIC RAL COLOURS

MADE TO ORDER FINISHES

Make a style statement and get the perfect finish with our bespoke Scudo RAL colour radiators. Our coloured radiators can be used to blend and tone, pop or accent. Choose something demanding and bright, or just a subtle finish to compliment a more muted palette.

We match to the RAL European standard used for paint and specialist coatings for a perfect finish and offer over 180 colour options to choose from across our Column, Apex and Bravo collections. Look out for the RAL colour logo on our heating pages to create a stunning centrepiece in your home.

10 WORKING DAY LEAD TIME

Find your local Scudo showroom online at www.scudo.co.uk and visit to order your bespoke coloured radiator.

Pricing confirmed on application.

HB600WSB	600 watt Standard Heating Element Black	£70.00
HB600WSC	600 watt Standard Heating Element Chrome	£70.00

ELECTRICAL ONLY HEATING

When selecting an element(s) we advise to choose one which matches closest to the radiators T50 Watts as possible without exceeding the products maximum. Exceeding the maximum runs the risk of the element overheating. This can be done using more than 1 element if required.

Electric only installation, element(s) should match room BTU / Watt requirement, and supersede the radiator output when selecting suitable size product.

EXAMPLE ROOM REQUIRES

1900 BTU's or 556 watts, requires 600 watt element so you would be unable to select a radiator under 600 watts.

DUAL FUEL ELEMENT

As this method usually means the electric element is a back up rather than primary system an element can be as low as 50% of the maximum radiator T50 Watts.

Choosing the perfect mirror can really put the finishing touches to a bathroom design and are an integral part of any space. Mirrors and mirrored cabinets in bathrooms are essential. They can create an illusion of more space, add light and style and create more storage space. In smaller bathrooms, a mirrored wall cabinet is an excellent option to create additional storage space.

RANGE FEATURES

Look out for these key features when choosing your bathroom mirror or cabinet:

LANDSCAPE & PORTRAIT MOUNTING

Add a personal touch to your bathroom by hanging a mirror that complements your decor and style. These mirrors can be hung landscape or portrait to enhance the ambiance of your space and create a sense of depth.

EASY TOUCH COLOUR CHANGE

These mirrors are built using an ultra-modern no-touch on/off switch. The light can be turned on and off by gently touching the sensor on the glass or waving your hand in front of the sensor. On selected products the colour of the light can be changed from warm white to bright white by touching the sensor and waiting until the desired colour/brightness is reached.

INFRARED ON/OFF SWITCH

Some of our mirrors and cabinets are built using no-touch on/off switches. By simply moving your hand under the sensor the mirror can be turned on and off without the need for a pull switch or leaving fingerprints on the mirrors.

WIRELESS CHARGING PAD

Latest technology featuring a wireless charging pad to safely charge compatible phones and accessories even when the lights are off.

HEATED DEMISTER PAD

All of our mirrors come with heated demister pads, enabling you to use the mirrors in steamy bathrooms. The pads heat the mirror to above room temperature, which stops mist appearing on the mirror.

IP44 RATED CLASS 1 RATED

A selection of mirrors are IP44, Class 1 Rated and suitable for installation in zones 2 or 3 of a bath/shower room.

DOUBLE-SIDED MIRRORS

Some of our cabinets are available with mirrors on the inside as well as outside.

TOOTHBRUSH CHARGING POINT

Innovative bathroom mirror charges compatible electric toothbrushes so that they have full power all the time.

BLUETOOTH™

This innovative feature allows any Bluetooth™-enabled device to stream music or live radio to the mirror.

SHAVER SOCKET

Built-in charging socket suitable for toothbrushes, shavers and trimmers.

PROSPR BLUETOOTH LED CABINET

Prospr offers excellence in bathroom design and combines elegance and practicality in one handy cabinet with Bluetooth technology.

The LED lighting is activated by an infra-red sensor eliminating fingerprints. The cabinet includes a demister pad, an electric shaver socket on the inside, and mirrored side panels for additional head and shoulder viewing. For additional functionality, the two glass shelves are fully adjustable.

Mirrors & Cabinets	5 Years	Electrical Components	2
Accessories	Lifetime	-	-

Zone 1 refers to the area above the shower up to a height of 2.25m and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

Zone 2 covers an area of 0.6m wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

Outside Zone has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom light is rated IP65, then the 6 means its 'Protected against dust' and the 5 means its 'Protected against water jets' from a shower, tap or cleaning processes from any direction.

First numeral - protection against ingress of foreign bodies, e.g. tools, dust, fingers, etc.

- 0 No protection
- 1 Protected against solid objects with a diameter of 50mm and over (e.g. accidental insertion of hands)
- 2 Protected against solid objects over 12mm (e.g. jointed fingers)
- 3 Protected against solid objects over 2.5mm (tools)
- 4 Protected against solid objects over 1mm (small wires)
- 5 Protected against - limited ingress permitted (no harmful deposit)
- 6 Totally protected against dust

Second numeral - protection against ingress of liquids.

- 0 No protection
- 1 Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect
- 2 Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.
- 3 Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.
- 4 Protection against splashing. Liquid splashed from any direction shall have no harmful effect.
- 5 Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.
- 6 Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.
- 7 Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.
- 8 Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.
